

To whom it may concern;

I am an XM satellite radio subscriber. I wish to urge you to reject the National Association of Broadcasters' petition number 04-160 to limit XM's ability to provide locally oriented content. I pay for these services and I feel that this petition violates XM radio's right to provide me with these services. XM's services threaten the monopoly local radio had on local weather and traffic. Competition is healthy and I hope you won't stop them.

Respectfully,
Jesse A. Roddy
